## Mission Statement

The Uniters Groups' aim is to supply you with technologically innovative, time saving and efficient products in observation with the most rigid environmental rules.

Service, Style, Speed and Satisfaction are the four S's we stand for.

# leather

This is our very well recognized trade mark for consumer leather care products.

The Trade Mark, registered in 1988, has been used on products used by tanneries, manufacturers, retailers, service technicians and consumers on 5 continents.

A professional product line for producing and repairing leather and leather goods.

Consists of Edge Paint, Colours, Cleaners, Finishes, Primers, Glues, Fillers and many more.

## ISO Certifications

### ISO 9001 Quality Management System

Uniters S.p.A. is producing under the ISO 9001 Quality Management System since the year 2000. It has been one of the first care product companies to achieve and maintain the certifications up to today. This means that every employee of the company is doing his or her work according to specific and strict standards with respect to quality. All our suppliers are - requested to respect the same standards.

### ISO 14001 Environmental Quality System

The environment is a precious good that Uniters intends to preserve where it cans. Therefore, since 2004, Uniters is 14001 certified.

### OHSAS 18001 Health and Safety Certification

A company is made of people and Uniters cares for people. The OHSAS certification awarded since 2005, sets out specific and strict rules concerning the safety at the work place. Safety, solvent use and handling of goods are monitored closely to the benefit of the health and safety of who works at Uniters S.p.A.

# Products for the leather goods market

UNITERS<sup>PRO</sup>

Leather  
MASTER<sup>®</sup>  
Developed by Dr. TORK

We have organized our products into 3 categories:

## Consumer products

Uniters has been offering since its' early beginnings demonstrable efficient consumer products that are fool proof, easy to use and where possible water based.

## Production products

Uniters produces a full range of professional products for leather goods production: edge paint, finishes, creams, protection products.

## After sales service and products

Who works with leather will encounter problems either at production level or at consumer level. Uniters has developed a full product line with problem solving solutions to keep your goods from returning to the factory.

Uniters has several repair centres around the world to assist you locally.

## Leather Soft Cleaner

Leather Soft Cleaner contains a delicate detergent that does not alter the original properties of your leather or its finish. It can be used on all types of leather except nubuck and suede. Leather Soft Cleaner is especially suitable for cleaning leather shoes, handbags and clothing.

Size: 100 ml PETG bottle - childproof cap  
 Order code: SL01410  
 minimum 24 pcs

## Leather Strong Cleaner

Leather Strong Cleaner is a mild, water based cleaner that can be used on most aniline and pigmented leathers. It will clean soiling as well as most water based stains.

This product is used in the same manner as Leather Soft Cleaner, but its' action is more intensive due to the greater concentration of active substances. The difference in this product is that it has twice the active cleaning ingredients. Leather Strong Cleaner can be used on all leathers types. It is very important that you use the product in combination with a sponge to foam the product, and a cloth to wipe away the excess dirt. This product does not remove the finish from any leather that has the proper rub resistance standards.

Size: 100 ml PETG bottle - childproof cap  
 Order code: SL001517  
 minimum 24 pcs

## Rapid Cleaner S

Rapid Cleaner S is a concentrated cleaner for pigmented leathers. Do not use on Aniline leather, nubuck or suede. This product comes with a foam pump.

Size: 100 ml HDPE bottle - foamer cap  
 Order code: PF03042  
 minimum 24 pcs

# leather

### Leather Protection Cream

Leather Protection Cream is a water based product that gently protects aniline and pigmented leather against oil, water and alcohol based stains. It will also keep your leather lovely and soft, and when used regularly prevents pigmented leather from cracking due to excessive dryness.

Size: 100 ml PETG bottle - childproof cap  
minimum 24 pcs

### Stay Bright Kit

The kit contains all the products needed to remove and prevent blue jeans or other colour transfer on to light coloured leather and leather like materials.

Packed per 12 pcs.  
Order code: PF02709

Weight per carton: 10,55 kg  
Dimensions of carton: 21,5 x 32,4 x 34 cm

### Contents

225 ml Leather Barrier  
Recycled HDPE bottle - childproof cap

225 ml Leather Cleaner  
Recycled HDPE bottle - childproof cap

125 ml Colour Transfer Remover  
Recycled HDPE bottle - childproof cap

1 application cloth  
1 cleaning sponge  
1 instructions and care tips booklet  
in 9 languages

### Soft Cleaner Leather Cleaning Wipe

Soft Cleaner contains a delicate detergent that does not alter the original properties of your leather or its finish. It can be used on all types of leather except nubuck and suede. Soft Cleaner is especially suitable for cleaning leather goods.

Size: Wipe Single Sachet  
Order code: PF02072

Available in English, Italian, German, Dutch, French.

# goods

### **Protection Cream Leather Protecting and Revitalising Wipe**

Protection Cream provides excellent protection against water, oil and alcohol stains for aniline and dyed leathers. It protects leather against everyday soiling, perspiration and greasy skin marks. Protection Cream is not suitable for nubuck and suede.

Size: Wipe Single Sachet  
Order code: PF02073

Available in English, Italian, German, Dutch, French.

### **Oleosa Cream Product to revive oil pull up leathers**

Oleosa is a waterproof fatliquoring product that can be applied using a sponge or a spray gun. As well as giving the leather a soft, oily touch it also provides the leather with an excellent waterproofing effect. Designed to be used on oiled or pull-up leathers to uniform the colour, improve the softness, renew an oily touch and also remove scratches and lightened areas during the production.

Size: 100 ml Oleosa Cream PETG bottle - childproof cap

### **Wax On Product to revive wax pull ups**

Wax On is a water-based product that when applied on waxy pull up leather it restores the normal softness, transparency and look on these types of leather. It can be applied by cotton cloth to remove scratches and lightened areas during the production.

Size: 100 ml Wax On PETG bottle - childproof cap

# leather

### Nubuck Cleaning Kit

Specially designed to clean and revitalize your Nubuck leathers.

Packed per 24 pcs.  
Order code: PF00043

Weight per carton: 8,06 kg  
Dimensions of carton: 14,9 x 37 x 51,5cm

### Contents

- 140 ml Nubuck Cleaner  
PETG bottle - childproof cap
- 2 Nubuck Cleaning Cloths
- 2 cleaning sponges
- 1 instructions and care tips booklet  
in 8 languages

### Nubuck Cleaning Cloth

Nubuck Cleaning Cloth is a gum treated cloth that captures dust and dry soiling. It is gently abrasive without removing fibres. The abrasive action gives back nubucks' velvet nap and restores eventual flattened dark areas.

Size: 1 pc                      2 pc  
Order code: PF00064              PF00065

### Nubuck Eco Protector

Nubuck Eco Protector protects nubuck, suede and aniline, against food and drink stains and general soiling. It also provides an oil, water and alcohol repellency.

Size: 500 ml HDPE recyle bottle - trigger spray  
Order code: SL01894

**EP Fluo**

EP Fluo is a water based edge paint with fluorescent pigments. EP Fluo is resistant to solvents and sun light.

Order code: PF03081 1 L

**Base colours available**

EP Fluo blue  
EP Fluo red

EP Fluo orange  
EP Fluo lemon

EP Fluo pink  
EP Fluo green

**EP Reflex**

EP Reflex is a water based edge paint with a reflective effect. EP Reflex can be applied directly on the raw edge, or as a final coat on an already existing EP.

Order code: PF03081 1 L

**Base colours available**

EP Reflex neutral

# Edge Paint auxiliaries

## Primer EP

Primer EP is a water-based product designed to reduce the absorption of the leather edges and to increase the adhesion of EP. Primer EP can be machine or hand applied.

Size: 1 L HDPE bottle

## Anti Foam

Anti foam is a silicon free blend of vegetable and mineral oils. It can be added to EP or Primer EP in order to eliminate eventual foam build up during the EP application. Normally a dosage of 0.2-1% of Anti foam in the finished product is sufficient.

Size: 1 L HDPE bottle

## Thickener

Thickener increases the viscosity of EP. Normally a dosage of 0.3-2.0 % of Thickener in EP is sufficient.

Size: 1 L HDPE bottle

# UnitersPro colour system

UNITERS<sup>PRO</sup>

Leather  
MASTER<sup>®</sup>  
Developed by Dr. TORK

This innovative Edge Paint matching and dosing system is revolutionizing the way you handle custom coloured Edge Paint:

- Matches any colour from 14 base Edge Paint colours.
- Eliminates lead time completely for styling departments
- Mixes any quantity from 25 ml up to 1 litre.
- Easy to use.
- Fast and accurate dosing.
- Extreme precision up to 0,03g.
- Eliminates mismatches of samples with production batches as you communicate us the recipe you want.
- Eliminates need of colour cards as you make your own.
- Low maintenance.
- Reduces your stock of Edge Paint.

## Capsure system

**The revolutionary handheld colour-matching tool that provides a powerful, versatile way to find an exact match against any of thousands of colours stored on the available electronic fan-deck.**

### Portable and Convenient

Capsure goes wherever you need to go. It is lightweight and powered with a USB rechargeable battery. It stores up to 100 measurements and features a built-in microphone so you can create a verbal record for each colour.

### Intuitive user interface

Requires no special training, finds the precise colour you are looking for, choosing from the thousands of colours loaded into the memory and provides you with the exact recipe for the reproduction of the same colour. You can review recommended colour schemes or navigate to find your own ideal colour to complement the colour reading.

### Adaptable and expandable

Keep your Capsure up to date with all the latest colour collections. On-board software allows you to easily synchronize and add new collections.

'Capsure Palette' utility: Collect and manage all of your favourite colours with this unique software application

## Capsure QC

The Capsure QC bridges the gap between colour appearance and material colour - from incoming material batches to outgoing product shipments - in an elegant, portable unit that fits comfortably in your hand.

The Capsure QC is designed to provide stable colour comparisons for materials and products wherever colour control is important.

### Features & Benefits

- Build a complete colour program
- Better working consistency
- Increased quality control
- Rapid and dynamic

# leather

## Cleaner 333

Cleaner 333 is a universal cleaner suitable for almost all types of leather. Cleaner 333 cleans general soiling without leaving rings after cleaning (also on fabric). This product can be used on delicate leathers, such as waxed, aniline, nubuck and patent leather.

Order code:	PF03149	1 L
	PF02575	5L

## Rapid Cleaner S

**Colour Line Pigmented series**

Colour Line Pigmented are water-based colours designed to re-new, repair scratches and fading on pigmented leather. Thanks to the formulation and the high quality of raw materials we can achieve a high performances in terms of the coverage and restoring the original appearance of the leather. After application it is necessary to use a fixative (Fix W 100 series) to improve the performances of the wet and dry rub-fastness. If dried using warm air, wait 24 hours to obtain the best result. Colour Line Pigmented can be applied by cloth or spray gun. Usually, after the application of an adhesion promoter (Pre-bottom A, Pre-bottom C or Pre-bottom S), apply the first coat by cloth and the following by spray gun to uniform the colour.

### Colour Line Pigmented HC series

Colour Line Pigmented HC series are a water-based colour designed to touch-up, repair scratches and fading of pigmented leather. Colour Line Pigmented HC has the uses double the amount of pigments and covers more. It is necessary to use a fixative (Fix W 100 series) after application to improve the performances of wet and dry rub-fastness. Colour Line Pigmented HC series can be applied with a cotton cloth or by spray gun in one or more coats. We suggest that you check the quality of the finish at least 24 hours after the application. Colour Line Pigmented HC series are particularly useful when you have to re-colour those type of colour that usually are transparent such as, red, yellow, blue and green.

**Colour Line Aniline series**

Colour Line Aniline are water-based colours designed to re-new, re-colour or to give a stylish effects to leathers such as crust, aniline and pigmented, with good absorption. Thanks to the formulation and high quality of the raw materials we can achieve high performances in terms of adhesion, wet and dry rub-fastness and flexibility. Colour Line Aniline can be applied by cloth or by spray gun. Usually, after the application of an adhesion promoter (Pre-bottom A, Pre-bottom C or Pre-bottom S), apply the first coat by sponge and the following by spray gun to uniform the colour.
